COMPANY PROFILE

We are an independent international trading and trade enablement company, specializing in true end-to-end trading solutions.

There are two key areas of focus within the business:

- International trading of bulk and construction materials.
- International trade enablement solutions.

OUR PEOPLE

Our team has extensive experience in:

- International trading.
- New business and market development.
- Global sourcing and procurement.
- International freight logistics.
- Supply chain management.
- Trade finance and insurance solutions.

BEING PROACTIVE

- We understand international markets and global sourcing.
- We handle entire import/export processes through to final delivery.
- We simplify processes and instil commercial, operational and legal best practices.
- We identify and mitigate risk, whilst supporting our client's financial objectives.

TRADING VALUE PROPOSITION

We provide:

- Differentiated services to suit clients' needs.
- True end-to-end supply chain solutions.
- A single point of contact and responsibility.
- Sustainable and long-term partnerships.
- Sourcing and logistics efficiencies through economies of scale.
- Cargo delivered to clients' premises on a DDP (Incoterms 2020) basis.
- Foreign currency risk mitigation by invoicing in local currency.
- Assured product quality, availability and reliability of service.

STRATEGIC PARTNERS

International Materials LLC is one of the largest independent suppliers of bulk materials globally, selling over 30 million tons of products worth over \$1.5 billion per annum to 45 countries worldwide.

Micofin is focused on resources, renewables, downstream beneficiation and manufacturing, specializing in advisory, research, project development and fund services globally.

Resilient Circular is focused on energy and industrial ecology. It is involved in technical, change management and project development from inception to financial structuring.

Mercury International is an authorised financial services provider and authorised FX dealer which offers online global fintech solutions, making transacting across multiple currencies cheaper, faster and easier.

WE ENABLE OUR CLIENTS TO TRADE WITH EASE

The cost to procure and deliver goods and materials internationally can be complex and depends on a number of interdependent factors. Knowing what can be changed, how and why, along with facilitating transactions and bridging extended cost of sales cycles, we provide a competitive advantage for our clients whilst they focus on what they do best.
